Editor in chief

Back to Contents

The Editor-in-Chief has overall responsibility for the scientific quality of the journal and makes the final editorial decision on all manuscripts. The Editor-in-Chief oversees editorial policies, publication ethics, and the integrity of the peer review process.

Musa Sarıca
Prof. Dr.
Ondokuz Mayıs University
Agricultural Sciences, Agriculture, Animal Husbandry, Winged
Institutional Email: msarica@omu.edu.tr, Türkiye

Associate Editors

Back to Contents

Associate Editors support the editorial workflow by conducting preliminary manuscript checks, coordinating communication with authors and reviewers, monitoring the progress of manuscripts throughout the editorial process, and assisting the Editor-in-Chief and Section Editors in the day-to-day management of the journal. Assistant Editors do not make independent editorial decisions regarding the acceptance or rejection of manuscripts.

Ahmet Şekeroğlu
Prof. Dr.
Niğde Ömer Halisdemir University
Agricultural Sciences, Agriculture, Animal Husbandry, Poultry Production
Institutional Email: ahmet.sekeroglu@ohu.edu.tr, Türkiye

Sedat Karaman
Prof. Dr.
Tokat Gaziosmanpaşa University
Biosystem Engineering, Agricultural Structures
Institutional Email: sedat.karaman@gop.edu.tr, Türkiye

Editorial Office Coordinator

Back to Contents

The Journal Secretary supports the Editor-in-Chief and the Editorial Board in the administrative and technical management of manuscript submissions and publication processes.

Main Responsibilities

- Initial administrative and technical screening of submissions

- Verification of author information, ORCID identifiers, files, and required declarations
- Checking compliance with TURJAF's submission, formatting, similarity, and ethics requirements
- Communication with authors regarding missing documents or information
- Assistance with peer-review and publication processes
- Monitoring manuscript status and editorial deadlines
- Maintaining editorial records and correspondence

> **Role:** The Journal Secretary does not make editorial or peer-review decisions. Manuscripts that pass the initial check are forwarded to the appropriate editor for further evaluation.

All correspondence and manuscript-related information are handled confidentially in accordance with TURJAF's publication ethics and privacy policies.

Hasan Eleroğlu
Prof. Dr.
Sivas Cumhuriyet University
Agricultural Sciences, Agriculture, Animal Husbandry, Poultry Production
Institutional Email: eleroglu@cumhuriyet.edu.tr, Türkiye

Production Editor

Back to Contents

The Production Editor prepares accepted manuscripts for publication, ensuring compliance with TURJAF's formatting and publication standards. The role includes final formatting, proofreading, checking author and publication metadata, coordinating author proofs, and preparing the final files for publication.

Ulrich Sosthène Hodonou
Agricultural Engineer (M.Sc.)
Sivas Cumhuriyet University, University of Parakou
Agricultural Sciences, Agriculture, Animal Husbandry, Poultry Production
Institutional Email: hodonouulrichs@gmail.com, Benin

Section Editors

Back to Contents

The Section Editors are organized into subject-specific sections reflecting the journal's scope, including **Animal Production, Crop Production, Agricultural Technologies, Agriculture and Environment, Food Technologies, Agricultural Economics, Veterinary Science, and Aquaculture**. This structure ensures that each manuscript is assigned to an editor with appropriate disciplinary expertise.

Section Editors are responsible for managing the peer review process within their respective subject areas. Their responsibilities include conducting an initial scientific assessment, selecting qualified independent reviewers, evaluating reviewer reports, monitoring the revision process, and making editorial recommendations to the Editor-in-Chief.

Section Editors contribute to maintaining the scientific quality, editorial integrity, and timely processing of manuscripts. The final editorial decision for all manuscripts rests solely with the **Editor-in-Chief**.

Statistics Editors

Back to Contents

Statistics Editors provide expert advice on statistical methodology, study design, data analysis, and the interpretation of statistical results when required. They support the editorial process by evaluating the statistical validity and methodological soundness of manuscripts and, where appropriate, provide recommendations to the Editor-in-Chief and Section Editors.

Statistics Editors serve in an advisory capacity and do not routinely manage manuscripts or make independent editorial decisions regarding the acceptance or rejection of manuscripts.

Language Editors

Back to Contents

Language Editors are responsible for reviewing the linguistic quality, clarity, grammar, terminology, and academic style of manuscripts in their respective languages. They ensure that accepted manuscripts are linguistically clear, consistent, and suitable for publication. Language Editors may recommend language corrections but do not make decisions regarding the scientific content, originality, or acceptance of manuscripts.

International Relations Editor

Back to Contents

The International Relations Editor supports TURJAF's internationalization strategy by facilitating communication and collaboration with international researchers, academic institutions, scholarly networks, and publishing organizations. The editor may also contribute to international outreach, the development of editorial partnerships, and the visibility of the journal in the international academic community.

Editorial Board

Back to Contents

The Editorial Board consists of experienced researchers representing the journal's broad disciplinary scope. Board members provide scientific advice, recommend qualified reviewers, contribute to the development of editorial policies, and support the journal by reviewing manuscripts within their areas of expertise when requested.

Editorial Board members promote the journal within the scientific community and contribute to maintaining its scientific quality and international visibility. They do not routinely manage manuscripts or make editorial decisions unless they have also been formally appointed to an editorial management role.

The final editorial decision for all manuscripts rests solely with the **Editor-in-Chief**.

Advisory Board

Back to Contents

The Advisory Board consists of distinguished national and international experts who provide strategic guidance on the journal's scientific direction, editorial policies, ethical standards, and international development. Board members advise on emerging research areas, promote the journal

within the global scientific community, and contribute to enhancing its academic quality and visibility.

The Advisory Board is not involved in the routine handling of manuscripts, peer review management, or editorial decision-making. All editorial decisions are made independently by the Editor-in-Chief in accordance with the journal's editorial policies and peer review procedures.

Turkish Science and Technology Publishing (TURSTEP)

Turkish Science and Technology Publishing (TURSTEP) is an independent, online, open-access publishing platform founded in 2013 and based in Türkiye. TURSTEP supports the dissemination of high-quality scholarly research and provides a global platform for academics, researchers, educators, and students to share knowledge and contribute to scientific advancement.

The Turkish Journal of Agriculture – Food Science and Technology (TURJAF) is one of the scholarly journals published by TURSTEP.

Abstracting, Indexing and Discovery Services

Abstracting, Indexing and Discovery Services

The Turkish Journal of Agriculture – Food Science and Technology (TURJAF) is indexed, abstracted, or covered by a range of national and international bibliographic databases, discovery services, library catalogues, and scholarly publishing infrastructure that enhance the visibility, accessibility, and discoverability of published articles.

For transparency, the services are grouped according to their primary function. Inclusion in a discovery service, search engine, catalogue, or metadata platform should **not** be interpreted as equivalent to inclusion in a bibliographic indexing database.
